INTRODUCTION B4501512-EN (10-21)

## INTRODUCTION

### **▶** BOBCAT'S HISTORY

In 1958, Melroe Manufacturing Company introduced a compact front-end loader that evolved quickly into the M400, the world's first true skid steer loader. The company soon adopted what became the world-famous 'Bobcat' brand – and its success paved the way for the global compact equipment industry we know today.

## **▶** INNOVATION CENTER IN DOBŘÍŠ

New technologies and machines are rigorously tested to take on the toughest jobs.

### **▶** BOBCAT TODAY

Since developing micro excavators with Zero-House Swing functionality in 1984, Bobcat has continued to innovate. Today, our equipment is known for providing all the power you need, where you need it, without extra hassle.

## **OUR MISSION**

We empower operators to accomplish more, while working in the toughest conditions and tightest situations. When our customers have the will, we provide the way.

FEATURES B4501512-EN (10-21)

## **MARKET'S #1 CHOICE**

of performance, operator comfort and stability, while maintaining the necessary compactness.

Foldable TOPS

### **▶** TRANSPORTABILITY Both models are easily towable on most trailers behind a standard passenger

STABILITY

Exceptional stability thanks to the widest undercarriage profile on the market in extended position.

## **▶** COMFORT

Pilot controls and patented adjustable consoles improve comfort and help you work longer and with less fatigue.

## ▶ PERFORMANCE

Conquer any challenge with ease with optional hydraulic oil cooler and pilot controls.

E08-E10z Brochure 5

## **PERFORMANCE**

## **▶** ADVANCED COOLING SYSTEM

Don't let the heat distract you from your job. Advanced cooling performance with optional hydraulic oil cooler means that your machine will stay cool and productive even in the most demanding applications.

### **▶** PRACTICAL AND VERSATILE

Designed to excel in a wide range of applications thanks to outstanding 360° stability. With the widest track profile on the market in the extended undercarriage position, both working range and lifting capacities get a major boost.

## **POWER WHERE YOU NEED IT**

### **NIMBLE AND FAST**

Travel around the job site in no time - thanks to 2-speed and high-torque travel motors. Precise maneuvering, even when runningat full power, increases your productivity significantly.

### **▶ LIMITED ACCESS IS ACCESS ENOUGH**

With Zero House functionality, even with ROPS protective structure extended, Bobcat machines allow operators to work in constrained environments, in extreme proximity to walls and other challenging situations.

## **TAKE CONTROL**

▶ PILOT CONTROLS

Take comfort and controlability even further with pilot controls. The selectable control patterns allow you to control the machine in your preferred way.

## **OPTIMIZED FOR COMFORT**

Low noise and vibration levels ensure excellent operator comfort along with reduced environmental impact.

## **▶** READY FROM DAY ONE

Equipped with expandable undercarriage and blade as standard. There is no need to remove and reinstall the blade extensions.

SERVICEABILITY & WARRANTY
B4501512-EN (10-21)

## **BUILT TO LAST**

## THERE'S NO TIME FOR DOWNTIME. STAND UP TO THE HARSHEST CONDITIONS. DAY AFTER DAY.

### **▶ SIMPLE MAINTENANCE**

Wide tailgate opening for easy maintenance and serviceability.

### **▶ STANDARD WARRANTY**

Bobcat Company develops every machine to the highest standards of quality and durability. That's why our standard warranty provides 24 months or 2000 operating hours (whichever occurs first) of coverage.

### **▶ PROTECTION PLUS EXTENDED WARRANTY**

Enjoy total peace of mind with a Protection Plus® extended warranty. Providing the same level of protection as the standard warranty, Protection Plus also reflects different customer needs and expectations by offering a choice of durations and annual operating hours. According to your needs, you can benefit from the coverage for up to 5 years or 6000 engine hours. And Protection Plus is transferrable – so it will likely increase your machine's resale value.

## **▶** BOBCARE

A long-running machine starts with proper planned maintenance. And it helps protect against repair costs and unplanned failures when you're counting on your machine to work.

- · Avoid risk by preventing major repairs and complete failures.
- Accomplish more by reducing downtime and increasing your productivity and profitability.

Certain specification(s) are based on engineering calculations and are not actual measurements. Specification(s) are provided for comparison purposes only and are subject to change without notice. Specification(s) for your individual Bobcat equipment will vary based on normal variations in design, manufacturing, operating conditions, and other factors. Pictures of Bobcat units may show other than standard equipment.

Rated hydraulic lift capacity. The lifting capacities are based on ISO 10567 and do not exceed 75% of the static tilt load of the machine or 87% of the hydraulic lifting capacity of the machine.
